Hey! I'm Nikita, a frontend enthusiast based in Tbilisi, Georgia.
With 3+ years of commercial experience in the JS/TS frontend world, specializing in React.js scope, and over 5 years of versatile developer background, I'm passionate about creating user-friendly web apps and solving unique problems.
Versed in architectural and design patterns such as Domain Driven Design, Feature-Sliced Design and Clean Architecture. I also have some skills in backend frameworks (NestJS, Express) and Docker.
Currently, actively seeking a new project!
