Profile

Frontend Engineer with 6+ years of commercial experience building production applications with React, TypeScript and Next.js. Experienced with SSR, reusable component systems, frontend architecture, release workflows, performance optimization and team leadership.

Core skills

Frontend: JavaScript, TypeScript, React, Next.js, Tailwind CSS, responsive design

State and data: Redux, React Query, GraphQL

Testing and delivery: Jest, Vitest, Cypress, React Testing Library, Git

Experience

EPAM Systems - Frontend Engineer

Jun 2024 - Aug 2026

Cosmetics e-commerce platform

- Developed a new regional e-commerce frontend with Next.js, React, TypeScript and shadcn/ui.
- Implemented wishlist functionality, built responsive interfaces and collaborated with backend engineers on the underlying data model.

Education platform

- Built and maintained features using React, Next.js and TypeScript with SSR, including UI redesigns and reusable components.
- Participated in the Adobe Experience Manager release process and resolved critical production issues.

Insurance platform - shared UI kit

- Developed shared components using React and Next.js in a Tailwind CSS and Yarn Workspaces monorepo, supporting multiple product themes.
- Maintained theme-specific behavior and used AI-assisted workflows to propagate repetitive changes consistently across themes.

Independent Contractor - Frontend Developer

May 2023 - Jun 2024

Built personal web products and an educational platform using React, Next.js, TypeScript, Astro, Strapi and NestJS.

Sberbank - Frontend Engineer and Team Lead

Apr 2021 - Apr 2023

Led frontend development across three product teams over the course of the role. Launched and maintained media, education and interactive products, improved performance and mentored engineers.

Business Integration - Frontend Engineer

Dec 2020 - Apr 2021

Refactored an internal service-status dashboard for Sberbank using TypeScript, React and Next.js.

Triumph Group - Frontend Engineer

Sep 2019 - Sep 2020

Developed browser-based CAD tools for clothing design and sewing patterns; contributed to planning and mentored six new developers.

Freelance - Frontend Engineer

Nov 2018 - Jul 2019

Developed six browser games with TypeScript and Phaser.js, plus a freelance web game project.

RD Express - Developer

Jun 2018 - Nov 2018

Built commerce and fulfillment bots with product search, delivery and inventory features; integrated external APIs.

GMsite - Web Developer

Jan 2018 - Jun 2018

Delivered website designs, frontend and backend maintenance, and bug fixes for web-studio clients.
